The Algebra Academy is a **FREE** four-week summer program for incoming high school students that allows participants to be active as they learn about algebraic concepts through fun, project-based activities. The Algebra Academy will **occur at Tucson High Magnet School.** In addition to the math preparation, students focus on their futures as they gain skills in how to manage the transition into high school, learn about college preparation, and explore career opportunities that match their interests. The purpose of the Algebra Academy is to provide students with a foundation and understanding of algebra they can build upon to achieve success in their future mathematics courses and on their path to a university education.

The Algebra Academy is not a substitute for Algebra I. Instead, participants will earn 1.0 unit of elective high school credit.

The Algebra Academy will serve approximately 30 student participants on a first-come, first-served basis from Tucson High Magnet School. We ask that you respond prior to our Priority Deadline of Monday, May 29th at noon.

**THE PROGRAM**

- Gain an understanding of algebra concepts through hands-on, engaging activities, while earning 1.0 elective credit.
- Prepare yourself for a successful transition to high school by learning more about your high school's campus.
- Plan for college and explore future career opportunities.
- Space is limited to approximately 30 students from Tucson High Magnet School. **Program will occur at Tucson High Magnet School.**

On behalf of the Tucson Unified School District and The University of Arizona, we urge you to take advantage of this unique opportunity to prepare yourself for mathematics, high school and a college education. If you have any questions, please feel free to contact UA Early Academic Outreach at 520-626-2300.
